

SPECIFICATIONS

Model 1006 VictO'Ree® Portable Scoreboard

Specifications subject to change

1. **SCOREBOARD GENERAL:** This scoreboard operates on a low voltage 12V regulated power supply which plugs into a 110V outlet. It will display minutes, seconds, 1/10th seconds, team scores, and period. Dimensions are 44 ¼"L x 31 ¼"H x 3"D (113 x 80 x 8 cm) with an approximate weight of 40 LBS (18 Kg).
2. **LED DIGITS:** The LED digits are 6" High from center of bottom LED to center of top LED. They are manufactured with SEVEN segments per LED digit with ability to adjust LED intensity (7 Levels) from control center.

SCOREBOARD

3. **MAIN TIME:** 6" red LED digits with capacity to display from 0 to 99:59. Timer displays 1/10th of seconds in the last minute of play. Timer will count up or down depending on the sport. The operator can set any number of minutes or seconds as long as the timer is stopped. Time of day can be displayed in the main time when scoreboard is not in use.
4. **TEAM SCORES:** 6" red LED digits. Has the capacity to display 0 to 199. The operator can set score to any number from 0 – 199 at anytime during the game or can use the controls to move the score up in increments of 1, 2 or 3 (depending on the sport) or decrements of 1.
5. **PERIOD:** 6" red LED digit. Has capacity to display 0 to 9. Will increment automatically at end of period or quarter.
6. **HORN:** 111db egg horn is included with the scoreboard. This can be disconnected to reconnected at any time. The horn will automatically sound when main time reaches 0:00 or, when in count up mode, the time set by operator. Operator may also sound horn manually at any time.
7. **CAPTIONS:** 3" White captions for HOME, GUESTS, 1 ½" PER (period) Changeable captions available on request.
8. **POWER:** Requires a maximum 1.0 Ampere at 12VDC (12 Watts). Normal operation: 0.5 Amperes @12 VDC (6 Watts). Low voltage 12V operation. Can be powered from an automobile 12V power supply with use of an optional cigarette adapter.

CONTROL CENTER

9. **PDA:** The PDA (personal digital assistant) with PALM™ software will be used to control the scoreboard. Our VictO'Ree® software includes a full graphical display multiple different sports.
10. **LANGUAGE:** The operator may select the choice of language (English or French) for the graphical display on the PDA.
